

# Camdao

Decentralized Adult Content Platform

BEP-20 Token (\$CD) on Binance Smart Chain

**The Future of Adult Entertainment is Decentralized**

Version 1.0 | October 2025

**Current Funding Status: \$7,000+ Raised via Giveth**

## Executive Summary

Camdao represents the world's first **Decentralized Autonomous Organization (DAO)** dedicated to revolutionizing the adult content industry through blockchain technology. Built on Binance Smart Chain as a BEP-20 token, Camdao addresses systemic banking discrimination while providing a transparent, fair, and community-governed platform.

The adult entertainment industry generates over **\$97 billion annually**, yet content creators face payment processor discrimination, account closures, excessive platform fees (up to 50%), and lack of financial sovereignty. Centralized platforms maintain control over earnings and content.

## Key Solutions

- Eliminating banking discrimination
- Reducing fees so creators keep **95%+** of earnings
- Ensuring privacy **with legally-required KYC compliance**
- Democratic governance via token voting
- Global, borderless accessibility

## The Problem

- **Platform Exploitation:** Chaturbate 50%, OnlyFans 20%+, LiveJasmin 30–40% fees.
- **Account Closures & Fund Seizures:** Sudden terminations, frozen earnings, arbitrary policy changes.
- **Privacy & Legal Requirements:** Real-name checks, data breaches, and **mandatory KYC** for adult compliance.

- **Geographic Restrictions:** High transfer fees (up to 15%), delayed payments (7–30 days).
- **Lack of Creator Control:** Centralized platforms dictate policies, algorithms, and fees.

## The Camdao Solution

### ***1. Cryptocurrency-First Payment System***

- Multi-crypto support (BNB, BUSD, ETH, BTC)
- Instant settlements with smart contract escrow
- Only **5% platform fee**

### ***2. Decentralized Content Hosting***

- IPFS-based storage
- Creator-controlled, cryptographic ownership
- Encrypted delivery
- NFT monetization

### ***3. DAO Governance Structure***

- Token holders control platform fees and policies
- Transparent treasury allocation via on-chain voting
- Community-approved partnerships

### ***4. Creator Empowerment Tools***

- Customizable storefronts and branding
- Direct fan interaction
- Flexible subscriptions and analytics
- Built-in marketing tools; multi-platform integrations

### ***5. Privacy & Security***

- Privacy-focused architecture; end-to-end encrypted messaging
- **KYC compliance for legal/age verification**
- Non-custodial wallets; Tor compatibility

## Market Analysis

Global Market Size: **\$97B+** annually; Projected Growth: **8.5% CAGR** through 2030.

Online Segment: **\$15B+**; Creator Economy: **50M+** creators worldwide.

Leaders: OnlyFans (20% fee), Chaturbate (50%), LiveJasmin (30–40%).

### *Competitive Advantages*

- First decentralized adult content DAO
- Lowest fees (5%) vs. centralized competitors
- True DAO ownership and crypto-first payments
- Community validation: \$7,000+ raised

## Tokenomics

### *Camdao Token Specifications*

Property	Detail
Standard	BEP-20
Total Supply	1,000,000,000 \$CD
Symbol	\$CD
Decimals	18
Burn	0.5% per transaction
Reflection	2% redistributed to holders

### *Token Utility*

- Governance
- Staking rewards
- Platform discounts
- Exclusive access
- Creator incentives

### *Token Allocation*

Allocation	%	Tokens	Vesting
Public Sale	30	300,000,000	Immediate
Liquidity Pool	20	200,000,000	Locked 1 year
Team & Advisors	15	150,000,000	2-year linear
Development Fund	15	150,000,000	3-year unlock

Marketing	10	100,000,000	1-year unlock
Ecosystem Rewards	5	50,000,000	Ongoing
Early Supporters	3	30,000,000	6-month cliff
Treasury	2	20,000,000	DAO-controlled

## Roadmap (Updated)

### **Q4 2025 — *Foundation (IN PROGRESS)***

- Whitepaper published
- Website & branding launched
- Community growth phase
- Airdrop campaign active
- Smart contract architecture + testing
- Security review preparation
- Creator interest & partnerships
- Token launch planning (NOT live yet)

**Note:** Token launch will occur once the beta platform is functional.

### **Q1 2026 — *BitNaked Alpha Development***

- Core platform architecture
- Wallet-based authentication integration
- Creator onboarding system (email + wallet address)
- Encrypted content upload system
- Basic pay-per-view functionality (testnet)
- Internal testing with early creators
- Begin mobile UI/UX planning
- Legal compliance research (international content standards)

### **Q2 2026 — *Closed Beta (Invite-Only)***

- Invite-only creator access
- IPFS integration for decentralized content storage
- Basic subscription and content unlock system
- Initial analytics + earnings dashboard
- First wave of creator content on platform
- Community feedback loop established
- Light-load stress testing
- Refine payout logic + 5% fee system

### **Q3 2026 — *Public Beta Launch***

- Public beta open to all creators
- Mobile-responsive version live
- Enhanced creator tools

- Basic community moderation tools
- Payment system connected to testnet \$CD
- Preparations for mainnet integration
- Initial DAO governance structure introduced
- Snapshot-style testing for proposals
- Creator community expansion

### ***Q4 2026 — Token Launch & Ecosystem Activation***

- Public launch of \$CD on PancakeSwap (Mainnet)
- Liquidity added + contract verified
- Smart contract audit published
- Integration of real \$CD payments into BitNaked
- Creator payouts activated (mainnet)
- Token-based unlocks, tipping & premium content
- Token listing submissions (CoinGecko/CoinMarketCap)

### ***2027 — Growth & Expansion***

- Live streaming added
- Creator subscription bundles
- NFT-based access passes
- Mobile app alpha release
- Creator grant program
- Exchange listing partnerships
- International creator recruitment

### ***2028+ — Innovation & Long-Term Scaling***

- VR/AR adult content integration
- Multi-chain token bridges (ETH, SOL)
- Decentralized streaming infrastructure
- Advanced AI content discovery & recommendations
- Smart moderation tools
- Global scaling & community-driven upgrades
